Mr. Laszlo Bunda  
Treasurer

Dear Mr. Bunda:

Thank you for conveying the Nassau Wings Motor Cycle Club's recent contribution of \$4,300.00 made to the Current Amyloidosis Center Fund at Boston University School of Medicine.

Your gift serves as an investment in transformational research and clinical therapies for amyloidosis. Because of your generosity, the multidisciplinary team at the Amyloidosis Center can continue pursuing cutting-edge research advancements that impact even the most vulnerable of patient populations.

Thank you for making a difference in the lives of amyloidosis patients and their families.

Sincerely,

A handwritten signature in blue ink, appearing to read "Karen Antman".

Nassau Wings Motorcycle Club, Inc.  
c/o Mr. Don Gomo

Vaishali Sanchorawala, M.D.  
Associate Director  
Director, Stem Cell Transplant

John L. Berk, M.D.  
Director, Clinical Programs

Dear Mr. Gomo,

Lawren H. Connors, Ph.D.  
Director, Gerry Laboratory

Karen Quillen, M.D., MPH  
Director, Stem Cell Processing

Thank you for your recent gift of \$4,300.00 in memory of Fast Freddy, in support of the Amyloidosis Center at Boston University School of Medicine. Your gift supports research programs that are steadily improving the outlook for patients with all forms of amyloidosis.

Sonia Ananthkrishnan, M.D.  
Endocrinology

Catherine Costello, Ph.D.  
Research

We, members of the Amyloidosis Center, are mourning the untimely death of our Director, Dr. David Seldin, on June 27, 2015. He was known as a brilliant scientist, beloved physician, encouraging mentor, and genuinely kind friend. We continue to miss the leadership and friendship of our colleague. Dr. Seldin's brilliance and kindness in the everyday work of the Center are not replaceable. However, the Center is a team of researchers and clinicians and, our research and care of patients are being continued with renewed vigor.

Andrea Havasi, M.D.  
Nephrology

Caryn A. Libbey, M.D.  
Rheumatology

George Murphy, Ph.D.  
Research

Carl O'Hara, M.D.  
Hematopathology

The Amyloidosis Center was established 50 years ago as a research program dedicated to understanding the cause and cure of the systemic amyloid diseases. These are devastating diseases that can occur sporadically, as AL amyloidosis; as hereditary diseases (familial amyloidosis); or secondary to chronic inflammatory or autoimmune diseases (AA amyloidosis). The Amyloidosis Center is a leading center for diagnosis and treatment of all of these conditions. Based upon discovery science in the laboratory, the diagnosis and treatment of amyloidosis continues to get better and better.

Tatiana Prokaeva, M.D., Ph.D.  
Research

Allison Rosenberg, D.N.P.  
Internal Medicine

Frederick Ruberg, M.D.  
Cardiology

Mark Sloan, M.D.  
Hematology

Lauren Stern, M.D.  
Nephrology

Our work relies heavily upon the support of patients, families, friends, foundations, and other donors. With you help, someday amyloidosis will be fully understood, diagnosed early, and turned into a chronic manageable condition instead of a dreadful disease. Thank you so much for your gift in support of this mission.

Vickery Trinkaus-Randall, Ph.D.  
Research

Cindy Varga, M.D.  
Hematology

Janice Wiesman, M.D.  
Neurology

Hassan Yameen, M.D.  
Internal Medicine

With warm regards,

Sincerely,

*V. Sanchorawala*

Vaishali Sanchorawala, M.D.  
Professor of Medicine  
Associate Director, Amyloidosis Center

*Thank you for your  
continued support.*
